## APRIL NEWSLETTER

Hola!

As some of you may know David Sears had a severe heart attack on 13 May. He had to be resuscitated three times but thankfully survived and has been in Norfolk and Norwich Hospital since. Tests showed his heart strong and arteries clear, bad news they don't know why it happened. Today they fitted a defibrillator and hopefully can come home tomorrow. As a result we were unable to go to the Pidley break and I cannot thank enough the team that went and pulled together to organise the event. A great combined effort. I understand the venue was a definite success and the staff excellent if not the weather.
